Our Ref: CNJ/142676/01/2025

Dear Sir/Madam,

Introduction

We are pleased to submit our techno-commercial proposal for the fabrication of steel structures as per your requirements. This offer is strictly limited to a fabrication-only scope to be executed at our approved facility in Musaffah.

Scope of Work — Fabrication Only

Our scope includes the supply of skilled manpower, equipment, consumables, and supervision to carry out shop structural steel fabrication works, including NDT-MPI testing for 10% of primary and secondary members, painting as per ADNOC specifications, and tagging. This scope explicitly excludes mechanical design, shop fabrication drawing preparation and approval, check testing, welding or painting inspectors, any site work, NDE beyond the stated scope, installation, erection, commissioning, third-party inspection, and the supply of structural steel material or fasteners.

Drawings, Design Responsibility & AFC Status

All fabrication shall be executed strictly in accordance with the client-provided Approved for Construction (AFC) drawings and specifications. Any subsequent revisions, design changes, or engineering updates will be treated as a variation and may necessitate an adjustment to the project schedule and cost.

Quantity, Weight Basis & Commercial Assumptions

The quoted price is based on the provided quantity snapshot and assumes that all materials are free-issued by the client. Any discrepancies in quantities or amendments resulting in increased scope will be processed as parallel variations to ensure project continuity and avoid payment delays.

Inspection, Testing & Final Acceptance

Quality control will be maintained through standard fabrication procedures, with inspection dossiers submitted upon completion. Final acceptance is defined as shop acceptance at our facility, evidenced by a signed release note or dispatch clearance, granting client representatives free access during normal working hours.

Delivery Terms & Risk Transfer

The delivery terms are Ex-Works, with all items packed and secured on wooden blocks to facilitate safe loading onto client-arranged trailers. Risk of loss or damage transfers to the client immediately upon the loading of finished products onto the transport vehicle.

Schedule & Prerequisites

سي اند جي الخليج لتصنيع المعدات ذ.م.م

C & J GULF EQUIPMENT MANUFACTURING L.L.C

P.O. Box : 7702, Abu Dhabi, United Arab Emirates

☐ Tel. : +971 2 5553 453

☐ Fax : +971 2 5553 966

☐ E-mail : cjengsales@cjengg.com

The project schedule shall commence only upon the receipt of a signed Purchase Order, advance payment, all necessary AFC drawings, and the delivery of all free-issue materials to our workshop. Any delay in fulfilling these prerequisites will result in an automatic schedule extension without the application of liquidated damages or penalties.

Payment Terms, Warranty & Liability

Payment shall be made on a 30 Days Credit basis from the submission of a Descon certified invoice with the SES No. mentioned, submitted at our MBZ office. We provide a warranty of 12 months from the date of dispatch, limited to the scope executed by C&J, and our total liability is strictly limited to the contract value, excluding any indirect, incidental, or consequential damages.

Validity & Contractual Basis

This offer shall remain valid for 30 days from the date of submission. Upon award, the Purchase Order, approved scope, agreed drawings, and this techno-commercial proposal shall together form the basis of the contract.

We trust the above clarifies our scope, responsibilities, and commercial basis. Should you require any clarification or additional information, please feel free to contact us. We look forward to your valued order and to executing this project to your satisfaction.

Should you require any clarification or alignment discussion on the above, we remain available for coordination.

We appreciate the opportunity to engage with M/s Descon Engineering and look forward to your confirmation and continued professional association.

Yours faithfully,

For C&J Gulf Equipment Manufacturing LLC.

Bilal Ahmed

Cost & Estimation Engineer.
