Our Ref: CNJ/142676/01/2025

Dear Sir/Madam,

Introduction

We are pleased to submit our techno-commercial proposal for the steel structural fabrication works as per our recent discussions. This offer is strictly limited to shop fabrication activities to be executed at our Musaffah facility.

Scope of Work — Fabrication Only

Our scope includes the supply of skilled manpower, equipment, consumables, tools, and supervision to perform structural steel fabrication and welding in accordance with ASME SEC IX and ADNOC painting specifications. This scope explicitly excludes mechanical design, shop fabrication drawing preparation and approval, check testing, welding or painting inspectors, any site work, NDE beyond the stated 10% MPI, installation, erection, commissioning, third-party inspection, and the supply of structural steel material or fasteners.

Drawings, Design Responsibility & AFC Status

All fabrication shall be executed strictly in accordance with the client-provided Approved for Construction (AFC) drawings. Any subsequent revisions, design changes, or re-engineering requirements will be treated as a variation to the contract and will be subject to additional cost and schedule adjustments.

Quantity, Weight Basis & Commercial Assumptions

The quoted price is based on the provided quantity snapshot and assumes that partial invoicing is acceptable upon certification by the client. The proposal excludes VAT and custom duties, and work shall not commence until the complete set of IFC drawings is received.

Inspection, Testing & Final Acceptance

Inspection activities include 10% MPI for primary and secondary members, preparation of inspection dossiers, and tagging as per project requirements. Final acceptance is defined as shop acceptance at our facility, evidenced by a signed release note or dispatch clearance.

Delivery Terms & Risk Transfer

The delivery terms are on an Ex-Works basis, with all logistics and transportation to be mutually discussed and agreed upon following the receipt of the Purchase Order. Risk of loss or damage transfers to the client upon the loading of materials onto the client's transport vehicle at our facility.

Schedule & Prerequisites

سي اند جي الخليج لتصنيع المعدات ذ.م.م

C & J GULF EQUIPMENT MANUFACTURING L.L.C

P.O. Box : 7702, Abu Dhabi, United Arab Emirates

☐ Tel. : +971 2 5553 453

☐ Fax : +971 2 5553 966

☐ E-mail : cjengsales@cjengg.com

The contract schedule shall commence only upon the fulfillment of four mandatory prerequisites: receipt of a signed Purchase Order, clearance of advance payment, receipt of all AFC drawings, and the delivery of all Free-Issue materials to our workshop. Any delay in these prerequisites will result in an automatic schedule extension without penalty or liquidated damages.

Payment Terms, Warranty & Liability

Payments shall be made on a 30 Days Credit basis from the submission of a Descon certified invoice with the SES No. mentioned, submitted at the MBZ office. We provide a warranty of 12 months from the date of dispatch, limited to the scope executed by C&J, and our total liability is strictly limited to the contract value, excluding any indirect, incidental, or consequential damages.

Validity & Contractual Basis

This offer shall remain valid for 30 days from the date of submission. Upon award, the Purchase Order, approved scope, agreed drawings, and this techno-commercial proposal shall together form the basis of the contract.

We trust the above clarifies our scope, responsibilities, and commercial basis. Should you require any clarification or additional information, please feel free to contact us. We look forward to your valued order and to executing this project to your satisfaction.

Should you require any clarification or alignment discussion on the above, we remain available for coordination.

We appreciate the opportunity to engage with M/s Descon Engineering and look forward to your confirmation and continued professional association.

Yours faithfully,

For C&J Gulf Equipment Manufacturing LLC.

Bilal Ahmed

Cost & Estimation Engineer.
