Dear Sir/Madam,

Introduction

We are pleased to submit our techno-commercial proposal for the structural steel fabrication works as discussed for your project. This offer is strictly limited to a fabrication-only scope to be executed at our approved facility in Musaffah.

Scope of Work — Fabrication Only

Our scope includes the provision of skilled manpower, equipment, consumables, tools, and supervision to perform structural steel fabrication, welding, and tagging as per your specifications. This scope explicitly excludes mechanical design, shop fabrication drawing preparation and approval, check testing, welding or painting inspection, any site work, NDE beyond the stated scope, installation, erection, commissioning, third-party inspection, and the supply of structural steel material or fasteners.

Drawings, Design Responsibility & AFC Status

All fabrication activities shall be executed in strict accordance with the client-provided Approved for Construction (AFC) drawings and specifications. Any subsequent revisions, engineering updates, or design changes requested by the client shall be treated as a formal Variation Order and may impact the project schedule and cost.

Quantity, Weight Basis & Commercial Assumptions

The quoted price is based on the provided quantity snapshot and is exclusive of VAT and custom duties. Partial invoicing is acceptable, and invoice certification by the client is deemed sufficient for processing, provided that work commencement is contingent upon the receipt of complete IFC drawings.

Inspection, Testing & Final Acceptance

Inspection activities include 10% MPI for primary and secondary members and the preparation of standard fabrication QC dossiers. Final acceptance is defined as shop acceptance at our facility, evidenced by a signed release note or dispatch clearance, with free access granted to client representatives during normal working hours.

Delivery Terms & Risk Transfer

The delivery terms are Ex-Works, with risk transfer occurring upon the loading of materials onto the client's trailer. We will ensure proper packing and the use of wooden blocks to facilitate safe loading and transportation.

Schedule & Prerequisites

سي اند جي الخليج لتصنيع المعدات ذ.م.م

C & J GULF EQUIPMENT MANUFACTURING L.L.C

P.O. Box : 7702, Abu Dhabi, United Arab Emirates

☐ Tel. : +971 2 5553 453

☐ Fax : +971 2 5553 966

☐ E-mail : cjengsales@cjengg.com

The project schedule shall commence only upon the receipt of a signed Purchase Order, advance payment, all AFC drawings, and all necessary Free-Issue materials. Any delay in fulfilling these four prerequisites shall automatically entitle C&J; Gulf Equipment Manufacturing LLC to a schedule extension without the imposition of liquidated damages or penalties.

Payment Terms, Warranty & Liability

Payment shall be made on 30 Days Credit from the submission of a DESCON certified invoice with the SES No. mentioned, submitted at the MBZ office. We provide a warranty of 12 months from the date of dispatch, limited strictly to the scope executed by C&J;, and our total liability is capped at the contract value, excluding any indirect, incidental, or consequential damages.

Validity & Contractual Basis

This offer shall remain valid for 30 days from the date of submission. Upon award, the Purchase Order, approved scope, agreed drawings, and this techno-commercial proposal shall together form the basis of the contract.

We trust the above clarifies our scope, responsibilities, and commercial basis. Should you require any clarification or additional information, please feel free to contact us. We look forward to your valued order and to executing this project to your satisfaction.

Should you require any clarification or alignment discussion on the above, we remain available for coordination.

We appreciate the opportunity to engage with M/s Descon Engineering and look forward to your confirmation and continued professional association.

Yours faithfully,

For C&J Gulf Equipment Manufacturing LLC.

Bilal Ahmed

Cost & Estimation Engineer.
