14-Apr-2026

Our Ref: CNJ/142923/04/2026

Dear Sir/Madam,

Introduction

Following our recent techno-commercial discussions, we are pleased to submit our proposal for the fabrication-only scope regarding the Hypochlorite Injection Skid Shelter & Pump & Portable Water Tank Shelter project. This offer is strictly limited to the fabrication activities as defined in our scope of work.

Scope of Work — Fabrication Only

Our scope includes the procurement of structural steel with 3.1 MTCs, fabrication, hot-dipped galvanizing, and painting as per AGES-SP-01-002, including 10% MPI and 10% RT testing. Excluded from this scope are mechanical design, drawing preparation and approval, check testing, welding or painting inspection, any site work, NDE beyond the stated scope, installation, erection, commissioning, third-party inspection, structural steel material or fasteners, and any aluminum roofing or handrails.

Drawings, Design Responsibility & AFC Status

This quotation is based on the assumption that the client provides all necessary GA and detailed fabrication drawings. Any subsequent revisions to these drawings or changes in design responsibility will be treated as a variation and will be subject to additional cost and schedule adjustments.

Quantity, Weight Basis & Commercial Assumptions

The contract price is strictly based on the quantities and weights stated in our offer, utilizing existing WPS/PQR and 100% visual inspection of weld joints. Any increase in quantities or changes in material specifications arising from drawing revisions or client instructions shall result in a formal variation order.

Inspection, Testing & Final Acceptance

Inspection activities are limited to the 10% MPI and 10% RT testing specified in our scope, with all other testing excluded. Final acceptance of the fabricated structures shall be deemed complete upon shop release and the issuance of a dispatch clearance note from our facility.

Delivery Terms & Risk Transfer

All works are offered on an Ex-Works basis from the C&J; workshop in Musaffah, Abu Dhabi. Risk and title transfer to the client upon the loading of materials onto the client's designated transport vehicle.

Schedule & Prerequisites

The project schedule shall commence only upon the receipt of a signed Purchase Order, the required advance payment, all Approved-for-Construction (AFC) drawings, and all necessary Free-Issue materials. Any delay in fulfilling these four prerequisites will result in an automatic extension of the delivery schedule

without penalty.

Payment Terms, Warranty & Liability

Payment terms are 7 and 15 Days Credit from submission of Probus Engineering and Construction Pte.Ltd certified invoice with SES No. mentioned at our Abu Dhabi office. We provide a 12-month warranty from the date of dispatch, limited to the scope executed by C&J, and our total liability is strictly capped at the contract value, excluding any indirect, incidental, or consequential damages.

Validity & Contractual Basis

This offer shall remain valid for 30 days from the date of submission. Upon award, the Purchase Order, approved scope, agreed drawings, and this techno-commercial proposal shall together form the basis of the contract.

We trust the above clarifies our scope, responsibilities, and commercial basis. Should you require any clarification or additional information, please feel free to contact us. We look forward to your valued order and to executing this project to your satisfaction.

Should you require any clarification or alignment discussion on the above, we remain available for coordination.

We appreciate the opportunity to engage with Probus Engineering and Construction Pte.Ltd- Abu Dhabi and look forward to your confirmation and continued professional association.

Yours faithfully,

For C&J Gulf Equipment Manufacturing LLC.
